

FIELD INSPECTOR

Bramhall Engineering & Surveying Company (BRAMHALL) is seeking an entry level or experienced individual with a strong work ethic, an ability to work in the field and to observe and monitor construction as the owner's representative on public works and utility construction. The position is hourly and seasonal.

Responsibilities include:

- Site inspection.
- Daily reports and record keeping.
- Quality assurance.
- Quantity estimates.
- Review of construction plans.
- Preparation of punch list.
- Coordination and communication with city officials, engineers and contractors.

Qualifications:

- Background in construction or another related field.
- Basic math and measurement skills.
- Ability to effectively communicate, both verbally and in writing.
- Valid drivers license required.

About BRAMHALL:

BRAMHALL was founded in 1996 in Avon, Ohio. Our core services include providing municipal engineering services, construction inspection and administration services, and providing site development services to clients in the private sector. We began offering Transportation Services for our clients in 2010 and our client base has been rapidly expanding in that area over the last few years.

We offer competitive wages, benefits, and a 401k plan in a relaxed office environment.

Equal Opportunity Employer.
