

Project Surveyor

Eclipse Co., LLC, is seeking a highly motivated full-time Project Surveyor for our office in Chagrin Falls, Ohio. This position will require you to work mostly independently, and will conduct surveys mostly throughout Northeast Ohio. This individual is required to be versed in the day to day operational functions of a field and office survey department. Responsibilities include review and process data, mapping field data, Topographic surveys, construction computations and staking, reviewing and preparing as-built surveys, operating of Trimble Robotic Total Stations, and GPS. Experience with 3d modeling and machine control would be beneficial.

The ideal candidate shall have an understanding of the following:

- Familiarity with Trimble Access data collection systems
- Experience with a Robotic Total Station, Survey grade GPS and leveling equipment
- Processing software such a Trimble Business Center
- Experience with AutoCAD and or Carlson software
- Experience with construction staking and surveying independently

Qualifications:

- A professional surveyor in Ohio is preferred but is not required.

This position offers a competitive base salary and benefits program which includes: Medical, Dental, Vision, Prescription Drug, and 401(k) Plan. Applicant must have a valid Ohio Driver's License, good driving record.

To apply please email your resume to HR@EclipseCoLLC.com or mail a resume to 11554 East Washington Street, Chagrin Falls, Ohio 44023.
