**If you're a highly motivated self-starter who wants to join a firm that pushes the boundaries of innovation in geospatial sciences, then Langan is the place for you!** Our award-winning, 1000+ person, multi-disciplinary firm can offer you the challenge, responsibility, and growth potential you deserve. The successful candidate shall share our passion for the challenge of merging the art of science and mapping. **We are seeking a Survey Technician – Entry to 2 Years Experience in our Cleveland, OH office location.** Successful candidates will have experience in topographic, boundary, and utility surveys, construction layout, and will be responsible for collecting field data and information related to the preparation of survey maps and CAD files. Surveyors will focus on small and large-scale land development projects including but not limited to commercial, big box, power centers, and residential properties.

### **Job Responsibilities:**

- Collects field data for preparation of surveys by using surveying equipment and software;
- Effectively uses reports, maps, drawings, engineering plans, and aerial photographs to assess project needs and assist in project approach;
- Assists in recovery of survey control and monumentation, construction layout, obtaining invert and subsurface utility information, and photo documentation of the project area;
- Applies knowledge and techniques of surveying and advanced mathematics;
- Maintain survey equipment and initiate repairs when necessary;
- Remain current on surveying practices, guidelines, and best practices; attend internal training and external lectures to expand knowledge and skills;
- Recommend new approaches and ideas that continuously improve efficiency and services performed; and,

- As necessary, assist with office tasks including but not limited to CAD drafting, data download, deed and map research, and filing.

**Job Requirements:**

- High school diploma; undergraduate-level courses in Survey or related field a plus;
- Entry to 2 years prior experience in topographic, boundary, and utility surveys and layout;
- Experience with Leica instruments and data collectors;
- Familiarity with current local, state and surveying regulations;
- Proficiency in Carlson, AutoCAD or Civil 3D software a plus;
- Strong attention to detail with excellent analytical and judgment capabilities;
- Demonstrated ability to work as a team with co-workers and managers;
- Excellent communication skills;
- Possess a valid driver's license in good standing;
- Availability to travel overnight for select projects; and,
- Position requires work Monday through Friday with occasional nights and weekends.
