

LAND SURVEYING INTERNSHIP

Ohio Department of Natural Resources
Office of Real Estate – Land Survey Section

Job Duties:

Applicant will assist professional surveyors and survey technicians in completing jobs both in the office and in the field. Intern will work in a variety of surveying areas including the plotting of deeds and field notes, creating survey plats and ownership maps. The Intern will also assist in maintaining Survey Section project files, conducting deed research, performing AutoCAD drafting, and survey calculations. The Intern may also at times be a member of a field survey crew.

Desired Experience: Applicants must be currently enrolled in a surveying; geodetic science; GIS; geomatics engineering; or civil engineering program.

Location: Ohio Department of Natural Resources, Office of Real Estate – Land Surveying Section, 2045 Morse Rd., Bldg. E-2, Columbus, Ohio. Survey crew works at ODNR facilities statewide.

Term: Spring of 2018 and the 2018/2019 academic school year, (start/end dates are flexible to fit summer breaks). 4 Day, 40 Hour work week when available.

Rate of Pay: Rate of pay for the position will depend upon the level of standing within the academic institution.
