Land Survey Crew Chiefs: UELS – Uintah Engineering & Land Surveying is a major provider of land surveying, drafting and civil engineering services for the Oil & Gas industries. UELS specializes in the layout and design of well locations, roads, pipelines, evaporation ponds, compressor sites and all related facilities. UELS prepares field maps, documents used in the APD, access permits, stream crossing applications, flood plain studies, structural designs, and design plans and specifications. With a proprietary in-house library of 50+ years of surveying and field work, UELS offers outstanding service, quality and accuracy with significant experience working in Utah, Wyoming, Colorado, New Mexico, Montana, Nevada, North Dakota, Kansas, Oklahoma and Texas.

UELS is hiring Land Survey Crew Chiefs. The Crew Chief's responsibilities will include staking well locations, surveying section corners, establishing section corners, and staking access roads, which may include slope staking access roads and well location pads. Responsibilities also will include staking pipelines and pipeline right-of-ways, topographic surveys and x-sectioning. This work will require meeting with clients, the public, and landowners. Excellent benefit package and competitive wages. Pre-employment and random drug testing is required and all applicants must have a valid driver's license with an MVR that meets the company's requirements. Please email resume to HR@UintahGroup.com or contact Meagin Mohar at 435-789-1017 x 183.
