PLSO CPD Workshop

Monday, November 12, 2018

Christopher Conference Center, Chillicothe, Ohio

SPACE IS LIMITED REGISTER EARLY!

Presenter: Donald Teter, PS, (WV) Mr. Teter has been a PS for over 35 years, and has presented numerous presentations on surveying laws, rules, ethics, technical issues and history.

The Relationship Between Boundary Law and Precise Survey Measurements: Stairway to Heaven or Pathway to Purgatory?
4 PDH

Advances in measurement technology now allow moderately trained personnel to obtain increasingly precise positions. This provides many solutions, but is also fraught with peril. When boundary law concepts are ignored and boundary determinations made with undue reliance on precise measurement, the result may be unnecessary conflict and fruitless litigation. Don will explore the use and misuse of the wonderful tool of "measurement".

Monumental Surveyors: Surveyors in Monumental Carvings, And Surveyors Working on Them
4 PDH

Many know Mount Rushmore depicts "Three Surveyors and One other Guy", but most know little about the surveying work of Presidents Washington, Jefferson, and Lincoln. This seminar provides an overview of that work, and also looks at the other guy, Teddy Roosevelt, with an exploration of his opinions about surveyors. No trip to Mount Rushmore would be complete without also visiting the nearby Crazy Horse monument, still being carved, so we will examine interactions between surveyors and Native Americans, and between the Rushmore presidents and natives.

Moving beyond the famous people in the carvings, we will study the surveying methods which have guided the sculpture work. After looking at the techniques Gutzon Borglum used to guide his earlier work at Stone Mountain, Georgia, we will look at the work at Rushmore. The discussions wrap up with a look at how surveyors at Crazy Horse are helping provide data and control to oversee the mountain carving project. The ongoing work is being guided and analyzed today with modern technology including laser scanning, which is also being used to guide maintenance work at Mount Rushmore.

PLSO MEMBER— AMOUNT DUE:	**NON-MEMBER— AMOUNT DUE:**
REGISTRATION INCLUDES continental breakfast, lunch, breaks, CPD certificate)	REGISTRATION INCLUDES continental breakfast, lunch, breaks, CPD certificate)
One-Day PLSO Member $150	**One-Day Non-Member $275**
