

Project Surveyor

Northeast Ohio

Job Description

CT Consultants is thrilled to be contributing to the growth and development in Mentor and surrounding areas. Our Mentor and Akron offices are growing, and we have a great opportunity for a Project Surveyor to join our dynamic team. This position is responsible for coordinating field survey operations, which includes: ensuring the safety of the crew, equipment maintenance, providing accurate survey data, and completing all assigned tasks. Must have experience working on a wide variety of projects, including data collection and construction layout.

This position could be based in Akron or Mentor, Ohio.

Desired Skills and Experience

- Associates in Land Surveying or Civil Engineering, required
- Minimum 5-7 years' experience, required
- PS licensure, preferred but not required
- GIS experience and skill set, preferred
- Familiarity with Trimble Access data collection system and Trimble Business Center
- Experience with AutoCAD Civil 3D and/or Microstation
- Excellent written and oral communications skills to articulate technical concepts at all levels
- Ability to work independently
- Exhibits strong organizational and time management skills
- Experience with terrestrial scanners and/or drone surveys

Tasks and Responsibilities

- Provides proposals for survey work
- Processes and verifies field data and conduct base mapping with AutoCAD 2014 or 2018\ Civil 3D
- Performs survey calculations, prepare plats and easements
- Prepares ALTA survey documents
- Reviews job specifications and determine best method of completing jobs
- Maintains equipment and keep proper records of maintenance and repairs
- Develops and maintains excellent client and public relations for the firm
