

PRIME AE Group (www.primeeng.com), a multi-discipline A/E firm with (16) office locations/@ 450 employees within the Mid-Atlantic, New England, Midwest and Southeast Regions, is seeking a **Survey Technician** for our office in (north) Columbus – Polaris area.

Summary of Job:

Successful candidates will have experience in topographic, boundary, utility surveys, construction layout and will be responsible for collecting field data and information related to the preparation of survey maps and CAD files. Surveyors will focus on small and large-scale land development projects including but not limited to commercial, big box, power centers and residential properties.

*** This is a Full Time role, not project-based or a Consultant-type arrangement, so candidates need to be in the vicinity of Columbus, OH.***

Job Responsibilities:

- Collects field data for preparation of surveys by using surveying equipment and software;
- Effectively uses reports, maps, drawings, engineering plans, and aerial photographs to assess project needs and assist in project approach;
- Assists in recovery of survey control and monumentation, construction layout, obtaining invert and subsurface utility information, and photo documentation of the project area;
- Applies knowledge and techniques of surveying and advanced mathematics;
- Maintain survey equipment and initiate repairs when necessary;
- Remain current on surveying practices, guidelines, and best practices; attend internal training and external lectures to expand knowledge and skills;
- Recommend new approaches and ideas that continuously improve efficiency and services performed; and,
- As necessary, assist with office tasks including but not limited to CAD drafting, data download, deed and map research, and filing.

Job Requirements – Survey Technician:

- High school diploma; undergraduate-level courses in Survey or related field a plus;
- Entry to 2 years prior experience in topographic, boundary, utility surveys and layout;
- Demonstrated ability to work as a team with co-workers and managers;
- Excellent communication skills;
- Availability to travel overnight for select projects
