**VALLEY VIEW, OHIO 44125**

**PH: 440-602-9071**

**FAX: 216-369-0259**

We are looking for a Field Survey Technician with a background in civil engineering and land surveying to work for a rapidly growing company in Valley View, Ohio. The field surveyor must possess the ability to operate as part of a two-person survey crew utilizing GPS and Robotic Survey Equipment and Windows Software. The applicant must be a team player, detail oriented, motivated and conscientious. Duties include research, completing topographic and boundary surveys and processing field notes and data for use by the office design staff. An Ohio valid driver's license is required. Two years or more of experience is preferred. This full time position comes with a full benefits package as well as the opportunity for advancement within the company. Salary is negotiable based on experience.

### **Job Description –**

- AutoCAD, GPS and Robotic Knowledge is required
- 2+ Years' Experience in Boundary Surveying, Construction Stakeout and Topographic Surveying
- Experience with Data Collection Technology
- Effectively utilize reports, maps, drawings, engineering plans and aerial photographs to assess project needs
- Collect field data for preparation of surveys by using Robotic and GPS Surveying Equipment
