[PRIME AE Group \(www.primeeng.com\)](http://www.primeeng.com), a multi-discipline A/E firm with (16) office locations and over 450 employees within the New England, Mid-Atlantic, Midwest and Southeast Regions, is seeking a **Project Surveyor | Survey Project Manager | Crew Chief** for our north Columbus, OH Corporate office (located off Polaris Parkway in north Columbus).

Summary of the Role:

Act in a leadership role to our existing Survey and Civil Site Design Department in our Columbus, OH Corporate office. The role will oversee daily field activities & coordinating personnel but will also have both a Project Management aspect as well as personal production.

*** These are Full Time roles – not a project-based/consulting-type arrangement. ***

Role Responsibilities:

- Manage a technical team to complete field survey tasks as required
- Prepare Survey drawings with Civil3D software
- Follow required safety standards and guidelines set by the company and clients
- Working knowledge of conventional, robotic, and GPS related surveying equipment
- Capable of directing and mentoring crew members and client interaction
- Maintain survey equipment in operational condition and applicable calibration checks
- Capable of performing basic calculations utilizing calculator or supplied data collectors
- Working knowledge of uploading, downloading and converting digital files with computer skills
- Mentoring lesser-experienced personnel
- Willing to travel and extended overnight stays required
- Performs other related duties as assigned

Education, Experience Requirements

- High School Diploma or equivalent
- **Licensed Surveyor strongly preferred** (*best case is Licensed Surveyor in Ohio*)
- (5) or more years of surveying experience performing:
 - ALTA Surveys,
 - Topographic & Boundary Surveys,
 - Construction Staking projects,
 - mapping surveys
 - Hydrographic Surveys
- Knowledgeable of GPS Survey methods
- Knowledge of completing surveys per ODOT standards
- Specialized skills and experience within pipeline, transmission and aerial mapping a plus
- Excellent Communication Skills
- Competent with Civil3D software
- MicroStation experience a plus
